## HELLO, my name is BEÁTA CSAKA

I am seeking for **beauty**, but always searching for **balance** in everything I do, whether it's about materials, colors or proportions. My artworks are a combination of mostly natural, bold, high quality materials and colors, while my style is clearly nurtured from my love for clear shapes and minimalism. Due to various project collaborations and different type of clients, my experience is based on exploring **function** through the perspective of **aesthetics**. I believe **design** is more than creating something - it's more like a **journey**, that besides talent, requires a lot of skills and qualities along the way. First of all, **curiosity** is crucial in order to question everything - to understand why things are the way they are, and to explore the possibilities of changing them. Secondly, **creativity** is another important element to exploring new concepts, forms and ideas. **Discipline** is also essential to drive continual refinement, but the most important is **passion**. Design requires a lot of **dedication** in order to enjoy the journey and deliver successful narratives through the visualization of the artworks.

This portfolio is a visual journey through some of my projects. Enjoy it!
